
BUILDING A WORLD OF DIFFERENCE®

ABOUT BLACK & VEATCH

BLACK & VEATCH
Building a world of difference.®

IMPROVING COMMUNITIES AND LIVES AROUND THE WORLD.

We provide our clients global experience and local resources to solve complex challenges with power, oil & gas, water and communications infrastructure.

SOLVING COMPLEX CHALLENGES

Our Mission sets the bar high – *Building a World of Difference*®. We're able to live up to that ideal through a global workforce of more than 10,000 professionals experienced in consulting, engineering, procurement, construction, operations and program management.

This depth of professional expertise in the energy, water and telecommunications industries allows us to deliver reliable and innovative infrastructure solutions to our clients' most complex challenges. The result is that Black & Veatch helps to improve and sustain the quality of life around the world.

IMPROVING AND SUSTAINING THE QUALITY OF LIFE

Our world is facing new challenges everyday, and we believe it's our responsibility to meet the needs of the present generation while improving the ability of future generations to meet their own needs. We do this by enabling the delivery of safe and reliable energy, clean water and instant access to communications through effective planning, design, procurement, construction and management of critical human infrastructure around the world.

INDUSTRIES WE SERVE

POWER/OIL & GAS

Black & Veatch is making lives better around the world by applying accurate planning, leading technologies, proven EPC practices and reliable operations solutions for oil & gas, power generation and power delivery infrastructure. Our global projects are consistently recognized throughout the energy industry for quality and best practices.

WATER

Black & Veatch has decades of best practices, timely and accurate project planning, industry alliances, and proven EPC delivery results in best-fit technologies and affordable, reliable, optimized water and wastewater solutions. We help communities and clients with innovative use of water resources, including treatment, conveyance infrastructure, water reuse systems, desalination, dams and hydropower, irrigation, flood management, and aquifer storage and recovery.

TELECOMMUNICATIONS

Black & Veatch works with leading companies and communities planning, designing and building digital infrastructure needed to foster growth and innovation. We deliver complete turnkey Information and Communications Technology (ICT) solutions, including wireless, wireline and IP networks, as well as information and operational technology systems used for secure communication, monitoring and control and data analytics. Our full service offering includes program management, planning, engineering, procurement and construction services to support the expansion of telecommunications and technology.

GLOBAL SCALE

- Professionals worldwide: 10,000+
- Global project base: 100+ countries on 6 continents
- 2,200 experts in construction and procurement managing more than \$2 billion in general contracting projects

GOVERNMENT SERVICES

Black & Veatch provides comprehensive planning, engineering, procurement, construction management and program management to Federal and military clients around the world, including serving the U.S. Government on missions from preliminary studies through complex military construction projects and civil work and environmental programs, aerospace and defense facilities and security.

MANAGEMENT CONSULTING

Black & Veatch is providing proven, strategic management consulting services to industry executives on a wide range of enterprise management matters, including:

- Strategy
- Finance and Marketing Analysis
- Regulatory Support and Compliance
- Customer Engagement
- Smart Infrastructure
- Asset Management
