PRICO® LNG PROCESS

SIMPLE, RELIABLE, MODULAR, SCALABLE SOLUTIONS BACKED BY PERFORMANCE GUARANTEES – IDEAL FOR OFFSHORE LNG APPLICATIONS WITH PROVEN PRODUCTION

OPTIONS FOR FLNG CONFIGURATIONS USING PRICO®

**Conventional (1.0 MTPA - 5 MTPA)**
- New build
- Ship-shaped FLNG with LNG storage in hull
- Barge-shaped FLNG with LNG storage in hull

**Unconventional (0.5 MTPA - 3 MPTA)**
- Barge with minimal LNG storage using FSU for near or at-shore
- Conversion
  - MOSS LNGC conversion
  - Bulk carrier conversion
  - Membrane LNGC conversion

**MULTIPLE TRAINS FOR INCREASED QUANTITY AND RELIABILITY 0.5MMTPA - 4+MMTPA**
- Allows incremental capacity buildup for offtakers, supports LNG market conditions
- Phased approach to align upstream development and feed gas supply
- Operational flexibility — improved turndown/easier startup
- Shutdown of one train still allows production from other trains
- Wider selection of equipment and fabrication yard
- Annual maintenance can be staggered by train
BUILDING A WORLD OF DIFFERENCE®

Black & Veatch is an employee-owned, global leader in building critical human infrastructure in Power, Oil & Gas, Water, Telecommunications and Government Services. Since 1915, we have helped our clients improve the lives of people in over 100 countries through consulting, engineering, construction, operations and program management. Our revenues in 2015 were US $3 billion. Follow us on www.bv.com and in social media.
